

Information *about DocuSign**

About DocuSign

- 100 million users in 188 countries
- More than 250,000 companies
- More than 130,000 new users join the DocuSign Global Trust Network every day
- Certified according to DIN ISO/IEC 27001

Data Security

- DocuSign meets the **leading industry best practices** for securing your data and transactions. Each electronic **signature is unique, documentable, encrypted and forgery-proof**.
- DocuSign ensures the **confidentiality** of all transactions and manages a comprehensive audit trail of signature events

Data Protection

- Data is kept within Europe and is therefore subject to **European data protection legislation**
- **DocuSign complies with the current EU directive on data protection**. DocuSign's top priorities include customer documentation and the protection of personal data in accordance

Advantages for the User

- **No registration or login required** for using electronic signatures
- **No separate software or hardware required** – just an internet-enabled device (computer, tablet, smartphone) and browser or app
- **Apps** for iOS, Android and Windows Mobile **available**
- **No separate costs** for the signatory
- Fast signatures **everywhere, at anytime**
- **Automatic email confirmation after signing** (includes confirmed documents as attachments in PDF format)
- **Ecological solution** (no printing necessary)

Legal Bases

- A DocuSign electronic signature is viewed as **legally equivalent** to a scanned, signed paper contract that you send by email to your contracting party.
- A DocuSign electronic signature conforms to the **eIDAS regulation (EU regulation No. 910/2014 - eIDAS [Electronic Identification And Trust Services])**
- eIDAS has been valid for **EU member states** since 07/2016
